Honor the old ways... and the old ways will honor you! The Volibear after the destruction of a Village. The Volibear, also known as Valhir or the Relentless Storm, is a vicious playable character in the multiplayer online battle arena game League of Legends. The old Freljordian demigod of war, the Volibear, is the actual manifestation of the storm itself. A wild, original being he wants to destroy Traces of civilization so that humanity can live in the untamed wilderness again. The 88th Champion added to the game, Volibear, was released on November 29, 2011 and reworked on May 28, 2020. It is most often played in the top alley or jungle. He is spoken by David Sobolov, who also sang Gorilla Grodd in The Flash, The Annihilator by Mighty Med, Shockwave in Transformers: Prime, Lobo in Young Justice and Injustice, Brawl in Transformers: The Game, Ripa 'Moramee in Halo Wars and Dr. Fate in Injustice 2. Biography Lore Back in ancient Freljord, when he was still known by the demigods of bygone times as Vorrijaard, the Volibear was the living manifestation of raw, unstoppable power. Legends tell of his feats by carving the Five Fjords with a single wipe of his claws and creating the first river from the blood of the evil serpent Rhond. Dressed in the rune armor from his brother Ornn's forge, the Volibear was revered and revered as a hero among the first tribes, and the two brothers won many victories together. When the three sisters (Serylda, Avarosa, and Lissandra) tried to take control of the land, the Volibears decided that they would have to be destroyed, as the order they would impose would ruin his vision of a wild, untamed Freljord. In preparation for the war, he gathered his wildest followers and asked Ornn to arm them for battle. But Ornn refused, and in response the Volibear cursed his brother's name and threw off the Runeguard armor, vowing to his followers that they would defeat the sisters with nothing but tooth, claw, and thunder. Although he dazzled Lissandra in battle, the Volibear could not prevent the Three Sisters from being remembered throughout history. Over time, the Freljord tribes came to worship them in place of the demigods of ancient times, and built stone walls, dams, and farms instead of hunting in the wilderness of nature. The Volibear observed this change in outrage, but could not answer, as many of the weak mortals had ceased to believe in him. From then on, the Volibear vowed to tear down all traces of civilization so that he could free humanity from its weakness. The Freljord would be strong again if you remember the old ways! It's only a matter of time before they believe in it again... Gameplay In-game, Volibear is a Juggernaut type character, with its powerful melee attacks and lasting health to destroy enemies in the middle of battle. His passive, The Relentless Storm, improves its basic attacks as it attacks, accelerates, and later produces chain flashes that hit nearby enemies. His ability thunderbolt leaves Volibear on all fours Enemies run to stun and damage them, Frenzied Maul lets him claw and bite, and Sky Splitter summons a powerful flash from the sky to cause surface damage. Volibear's ultimate storm-bringer lets him jump to a place to damage and slow down enemies, disable towers and increase its size Personality You have the heart of a weakling. The Volibear Savage and destructive, the Volibear is quick to annoy and even faster to respond to a fight. When Udyr and Sejuani turned to the Ursine to ask for help for the demigod, they did not need to promise him their services, but gained his support by attacking his ego and calling him a coward because they refused to help them otherwise. This shows that the Volibear is so stubborn in his belief that he will hold on to them, even if it does not match his self-interest, just to ensure that his own pride is not damaged. The Volibear appreciates the wilderness above all else and as a result has a deep resentment against civilization. When Ornn refused to arm ursine, the Volibear revealed a selfish and merciless side, because he did not get what he wanted by throwing away the armor his brother had given him and holding a grudge in his hand for centuries. The Volibear also proves to be very arrogant, since its power exists only when people worship it, and therefore it wants to be worshipped at all times. But when the Volibear kills Ornn in the game, his quote shows that he feels remorse, implying that he still cares about his brother, even if they are enemies. His taunt makes him smash an ice sculpture of Ornn and calls him a coward. As part of an inside joke among riot developers, he also has a rivalry with Zilean, who has a strange hatred of bears. He is the one who blinded Lissandra. He is revered by the Ursines and is in alliance with the Winter Claw. His dance is a nod to the Sam B dance in America's Got Talent. Before the Volibear's rework, he and ursine had a very different story, especially how they were not portrayed as evil and Volibear was actually his name instead of a title. In ancient history, he was himself The Chief and The Shaman of the Tribe, who climbed a holy mountain and was struck by a lightning bolt that gave him his electric powers, but also gave him a vision of the guards who slaughtered the whole tribe. Volibear challenged the leaders of the tribe and defeated them, the title of leader and gathered the Ursines to fight their new threat. The second iteration shows him teaming up with Sejuani to fight Lissandra, which has been transferred to his reworked story (although the current Volibear is less heroic with its motives). Preliminary work Volibear was created by Patrick Warburton, Warburton. The villains include Blag in The Wild, Kronk in The Emperor's New Groove and Ken in Bee Movie.
